

## QUESTIONS ABOUT RESIDENT RESERVED PARKING

Students living on campus may be put on the Resident Reserved Parking List by checking “Yes” on their housing contract. You may confirm that you checked yes by logging into the **Housing Portal** located on the University Housing Web site, <https://campushousing.uark.edu/StarRezPortal/> (may be unavailable after cut-off date).

Please understand that the demand for Resident Reserved parking spaces is high and signing up on the Resident Reserved parking list **does not** guarantee that you will be offered Resident Reserved Parking for the 2018-2019 academic year.

University Housing will send the list to Transit and Parking by August 1, 2018. When you are eligible to purchase a Resident Reserved Permit **you will be notified by Transit and Parking via your University of Arkansas e-mail account**. Resident Reserved permits are offered first to returning students and then based on remaining availability to new students. Offers are based first on the parking zone in which a student lives, then on the number of points they have for living on campus, and finally by the date they sign up.

Because parking enforcement is ongoing throughout the year, it will be necessary for vehicles to have a current permit to avoid receiving parking citations during the time Resident Reserved parking assignments are being made. If you haven't received a Resident Reserved Permit before you arrive on campus, a general student permit should be purchased. The purchase cost of the student permit will be deducted from the purchase price of the Resident Reserved permit when an approved applicant purchases his/her Resident Reserved parking permit.

If you have questions about the location, enforcement, or maintenance of Resident Reserved parking lots or how you may purchase your permit once it has been assigned, please contact the Transit and Parking Department at 575-PARK or email [parking@uark.edu](mailto:parking@uark.edu).

Resident Reserved Zone List
