Report on Current Status of Parking:

- Revised Special Events Parking and Charter policy – requires charter providers coming to campus and departments who bring private charter providers to campus to contact Transit and Parking in advance to make arrangements. This policy also requires departments wishing to use bus stops for any purpose to contact us. This is in addition to the requirement for departments wishing to use parking for any events to contact us.
- Revised Tailgating policy – working with Athletics to revise. Currently being reviewed by UAPD.
- Stadium Drive road work – One mini roundabout was constructed this summer. The second mini roundabout is scheduled to be built during the summer of 2017. There will also be parallel parking along Stadium Drive north of Clinton built in during the summer of 2017.
- A short term meter was removed from Lot 30 due to loss of spaces from sidewalk redesign.
- Athletics reconstructed and expanded lots 74-74E, increasing the space count.
- Transit and Parking is continuing working through the Transportation Study recommendations.
- Parking is in the process of procuring a License Plate Recognition (LPR) system which will require some changes:
 - i. Vehicle license facing driveway
 - ii. Vehicle standing (parked with someone in them) will be treated the same as a parked car. If they do not have a permit for the lot, they will be cited. Since they are taking up a space, this is appropriate.

- iii. Citations can be held for an hour to allow a visitor time to register with a department and the department to purchase parking for them. This eliminates the visitor having to deal with a citation.
