Due to unforeseen timing issue, Blue Reduced is undergoing a route modification beginning Monday, June 6th. The Blue Reduced stops at Food Science and Abernathy will be closed and relocated for the remainder of the summer. Riders needing access to these stops can use a new temporary stop at the intersection of Cassatt St and Garland Ave. This will allow for better schedule adherence. The detour is permanent for the summer, but will resume regular routing on August 22nd, 2016.
